

Interested in the new plans for Lot 17 at the Kelvin Grove Urban Village?

Come and see the new approach for Lot 17 at a public display in the Village. The latest plans reflect community feedback on an earlier planning application and proposal for the site.

The new plans require approval from Brisbane City Council to change some aspects of the Kelvin Grove Urban Village Local Plan for Lot 17. The Department of Housing is applying to Council for that approval.

Find out more and view artist impressions of how the new development, which is designated for quality private apartments, could look.
